PORTLAND, MONDAY JANUARY 24, 1884

THE INTERSTATE BILL In response to the demand of the people the

interstate commerce bill has become a law. There has been much speculation in regard to the results it /may produce. The country will now ascertain by actual experience. The bill was a necessity, because the peop e meter will be satisfied to let the rationals of the be experimental. Thus, as knowledge is gained through experience, the laws for their guiation can be modified and perfected. Examination of the subject from the stand

-leads to the probable conclusion that great changes will be made by the bill by the course and methods of business. It looks as it the rail roads would be compelled to san this their through truffic and to make up the loss by addi lional charges on local traffi. Pouls on the soaboard, as San Francisco, Portland and Seat-tie, will get the great bulk of their freight from some extent, perhaps, by the Canadian Pacific, and points in the interior, this side of the Rocky mountains, will have the choice of paving on the long haul from the East or on the shorte tem as will make most money for themselves

We believe that if the interstate law could re-

main permanently in the form in which it is now presented the ultimate result would be highly beneficial to points on the Pacific seaboard, and on the whole injurious to points in the interior. The reasons for this opinion seem sufficient. Portland, for example, can not be depitted of the advantage of moderately cheap deprived of the advantage of mederately cheap rates by mea. She may be able to pay the over land rate on but few classes of goods that case she will be able to receive most kinds ds by sea at much lower rates than Walla Helens can get them from the East by rail. From Portland to Walla Walla or Spokane Falls there is but a short haul, but from New York, Chicago, or even St. Paul, to those points, the haul is a long one. The railroads at least must live, they must take in money enough from business to pay fixed charges and expenses of operation, and if they are obliged to sacrifice through business, as they expect, they w'll be compelled to add the amount thus cut off to charges on local business, or on business that stops short of their terminal points. The ques-tion then will be whether, having the advantage of rates by sea, the centers of trade on the Profile sanboard will not be able, with their requirespond will not be are, with their shorter had to all places on the Pacific alope, to postroithe bosices of the Pacific alope against the Rest, with its much longer railway had having the rate of commodities brought from the East for consumption here

bave been considered How about carriage of our own produc's to the East ' The long haul is now reversed. The railways have made what they call low rates for our wool to Eastern mar-kets. It will be surprising if they do not make higher rates in consequence of the exactment of this law. It may, indeed, cut 2 cents from the price of every pound of wool produced and the same may be the result in regard to hope. It may likewise diminish the prices paid for mattle, and as to lumber it may prove prohibi-tory. All these things are to be tried. This bill to them as to cause a demand from them within two rears for its essential modification, or per-tage total repeal. It is true that under the bill the commissioners will have great discretionary powers and may largely modify or suspend the operation of the act but the business is so vast as to render it impossible that they should be able to give it examination in detail. A Portland merchant, speaking on this point a day or two ago, said that the commissioners would have re business thrust upon them in the first six weeks of their administration than they could

ness of our transcontinental roads against the dian, it is provided in the interstate law that the commissioners may nuthorize in special casee, after investigation, a less charge for a longer than a shorter distance—and in order to get data for this action it is provided further, that "any freight from the United States through a foreign country into the United States, the through rate on which shall not have been made public as required by this act, shall, be fore it is admitted into the United States from said foreign country, be subject to customs duties as it said freight were of fereign produc tion." This will prevent the (anadian from getting advantage over our roads from secret rates, but the course of business under it will be complicated, uncertain, a diprobably subject to many changes, annoyances, and consequent losses. Little, however, is known for certain and the only thing that can be done is to 'wait

THE RAILWAY I KIDSF

Over any bridge whose construction the leg s over any ortoge whose constructs in the leg stature may authorize, it will have fit power a control taxes, even if the power is a secreted in the bridge charter Bit in granting the charter for the proposed rakway believe at lart land it is well enough three rise to the legislation of the legislati ture or to lodge in our conty c net or somewhere else the power to regulate the rates.

Then it will be plain to members of the legisla tore and to all others that it else will be no possibility of setting up an ununified monophy. As heretofore statel, the right to construct this bridge is a great and valuable franchise.

No such franchise can be granted without reservation of the right of regulation and couttol, so as to prevent abuses. The legislature will have this right in any event, for of convert will not grant a charter in terms that would arrender it If the bridge, then, is built the legislature may regulate it afterwards but it should put into regulate it afterwards but it should put late the charter an assertion of its right to regulate, or should commit that right to some appropriate tribunal, so that the public may be satisfied fully that the use of a great franchise shall always be held amenable to regulation in the interest of the oublic.

We should be unwilling to see this proposition for construction of a bridge loaded with conditions that would defeat it but any conpany should be willing to accept the condition that has been named. For that condition will exist, whether asserted or not, unless it is definitely surrendered in the charter and this last the people would not permit the legislature to do.

The report of scandaious and infamous conduct on the part of a member of the legislature cought to be investigated. Every consideration of decency, morality and honor demands an investigation, so that it may be known whether 'dere ignation, as that it may be known whether "aere is any ground for the report, and that "ae members may be exculpated if innocent, "r, if guilty, may be dealt with as he deserved. It there is any man in this legislature so utterly infamous, the people of Gregon have a right to know it and if the report is not true, no such accusation should be allowed to attach to any member of that long to the deserge of the whole. that body, to the disgrace of the whole.

Mr. Chandler, senator from Baker, is not to men of small caliber most affect. He, too, has introduced an unit-Chinese bill. It proposes as act declaring that "it shall be unlawful for any corporation in the state of Oregon to employ any alten person not under the laws of the United States slightly to become a citizen thereof, agon any works improvements or buildings done by such corporation." The penalty is to be \$500 for each violation of the act. Now if the baliens" against whom Mr Chandler proposes y foolish and unconstitutional legisla d be naturalized by the United States before them, proclaiming himself their humble ervant. You can always tell the size of a man by his running a tilt agains the "inferior races".

The country became accustomed to such years ago, through their declamations against and ger e juality, ' and the ' nesty nigger wat

The Washington Post, a democratic paper, says that 'U ffersoniau simplicity' has been misunderstood feffers in, it says, bought and helped to drink \$10 00 worth of wines while he was in the White house, and his average ex-penditures were much greater than Mr Cleve land's. Moreover, he mortgaged his farm and thed in debt. Thomas J flowson put on a good deal of siyle all his life, and he is no a good exemplar for mybody who would learn either humbity or frug ility Jefferson, we may add. wore allk stockings, rull d shirts and lace-edged coats, and while his manners were sim ple and his ideas democratic, he was a highly polished man of inxurious personal habits of bring. But even President John Adams hid a trace of frivolity, for he bought a billard table in France, set it up in the White house and sent

THE VEEK AT SALEM.

I ORTIAND 231 of January

By following trictly the order of brethoss the
legis a u e has posibled a great deal of work well
forward. The flee are clear of new bills in both
houses and the greater in inher have passed their
second readings and are in who the hands of committees needings and are in who the hands of committees previous to adjointment on Priday and
are new yeardy for final action in the houses in
which they originated. The oblist hus in hand are
those in which there is small interest and an dis
pule. None of the measures of general interest
have pets come from committees nor are they likely
to for a few days. Two fown incorpora ion bills
have pessed the house and in the senate I believe
two or three sin liar bils have passed. but as yet
there has been no interchinge of bills between the
two houses. However, the preliminary work is FORTIAND 23 lot Tanuary s deration of bills is likely to take up a good share

of the week to come
The refered bills now number not less than a inings which no fellow can find out The only railroad which has much to fear is the Oregon Railway and Navigation company. It is protected in the senate by the Fortland ring and its demoin the senate by the Portland ring and its democratic contingent and is making such impression
as it can upon the house by means of lobbysts
roully devoted to its interests while pretending exclusive interest in other matters. The house will
pass some big prescribing a heavy reduction in
freight rates but the senate will probably stand
for the railroad it treat and defeat the efforts of
the house. I am less inclined to believe that relief
wither a ovided for Fastern Oregon than I was a
work ago. The recipie of that section will have to
send more men like Wager and Taylor and fewer
rise R nebat and Chandler before they will get
ruch relief
heap, of onricht his taken shape as a political
row and it is as it to run b mans intonded to
linear through by fy yold it has it for par
an advantage. Then then of the can us will ad
unit of the other control that and the assection

an advantage. The a tion of the can us will admit of he offer to that then and she assertion by the each time to be the time and the assertion by the each time to be the time as the time to be time as the time to the time as the time we will go before the people on the issue thus cre-ated. But the governor dures do anything be wants to do, as every body ought to know by this time and I don't believe he will sign any bill that will lojure his party. If the republicans urge a partisan reapportionment they will need a woll democratic protest. It looks now as if the result would be—nothing. Fur her stoly I the census returns uncreases the difficulty of the situation as to a basis for reapportionment. Besides the irrogularities previously reported in the state census ossai it is found that the totals for the different systems and that they do not stand for the same refailty facts. For example, in the Usitop county return the number of males of 21 years of age and upward and the number of legal voters are both added into the otal. This is but one of many errors. Indeed, so unmerous and various are these errors Indeed, so numerous and various are these errors that those who have given the tables of so

n ore searching.

There is some talk of a faw doing lawly with exthere is some tain of a raw ding, why with ay emptions for indebtedness to take effective years from now. It is urged that the proposed delay of two years would all with e for the unitry to perpare itself for the new registron and further that the voters would have a chance in the ection of 1888 to express their judgment in the matter. If the decision should be against nonexemption then it would be easy to repeat the law before the state of the country than Meri. There we are decided to the country that Meri.

date of its comit i into effect. There is a good deal of sense in this proposition.

It is a contained by discount in the hands of the committees. As to its limited fate I think it fer provision is in resulter filty sing the logistature has this reliably with at express a thority. There is some task that the detectats will stand by the governor's velocifies at master to matter in what shape it comes up but it in informed by democrate who ought to kink at the there is not such it is an agreement the eart if I side of the shink it may be exactly ought to kink at the bridge price of the eart if I side of the bridge price in secret organization against the bridge price there is no appearance of a position in the legislative to the Brittan dwarf bill and I think that the time before the bridge price the product in the bridge price in the price of those of a new man, in the trip to put it through with a price in the price of the secretting at a bridge price in the price of the bridge price in the price of the bridge price in the price of the price in the price in the price of the price in the the policy of these, silve command on it it try to but it this nucleus it is a vito in but it this nucleus it is a vito in but it this nucleus it is a vito in but it this nucleus it is a most all and roll it is losely the priper blood is set. The normally his as measure the real numer and have getten it to a shape, where it is ports the other. The cathy priper it is called fruit tree separate appropriation one of \$150 for the Ash in \$6001 and a third of \$300 for the school at the of \$100 for the Ash in \$6001 and a third of \$300 for the school at the school at the other of \$100 for the Ash in \$6001 and a third of \$300 for the school at the other but now it it possed to make one general appropriation of \$12.00 to be distributed equally between the three schools. In support of this last measure there will be a very strong rull. The unwisdom of dividing and cliff further subdividing the state higher added itous effort, ought to defeat this measure and I believe that it will.

The bills relation to the state board of immigradon and the states, recultural society will I have no for bt be matched one against the other and so both succeed. The state fair proposition if heft to tand alone would fall, but the opposition to the immigration board is not general and the appropriation would be made I think without trail agreement is supporters ought not to lend themselves to any swap and barter arrungement but I have no faith that they will keep out of it.

Of the Chinese blis and most radical is that in troduced on Indiaday by Munger providing that no Chinaman shall lease any real estate or inluing no Chinaman shall lease any real estate or influing claim or work in any infining claim. This mossive will die of its own too much but there is ano ber merestive in the form of a built whill a shades a better chance. It provides in efter i that no railroad or other organization having its authority from the state shall employ Chinese in any sort of labor. It is not likely that such a law would stand before the courts but if it should it would seriously cripple railroad building. The California & Oregon road is being pushed to its connection in this state largely by Chinese labor its employment being a positive necessity, since white labor in sufficient supply is not to be had. The Oregon Pacific extension that the court of the state of

The bill to increase the pay of the judges of this supreme court from \$2000 to \$3000 per year after a shuttlecock experience before the house was final ly referred to the judges not seems general willing ness to give the judges more pay but at the same time general malisposition to fly in the face of the state constitution, which provides in article 13 see also 1, that "the judges of the supreme court shall each receive an annual salary of \$2000," and that

they shall receive no fees or perquisites whatever etc Mr Harrington, of Midmonth I airmen of the house committee of I intolary is making a careful study of this question and has written to Judge Matthew P Deady Jud e George II William Judge Jam & Keily Judge I D Shattnek Judge P Primend too? S F Chadwick, all members of the consent to oal convention asking their judgment of the will will not report upon the 1 R till answers have been relieved.

A projestion in the form of a bill authors ing A projection in the form of a bit authorities the collidation of he state laws by the judges of the star in the died din ing the week is likely to make a good deal of discussion not because there is now object in to the scheme fixelf but be a ule there is a write of our retor to the part of the state with Ho V. Lar II.1 to buy his code pure the star to the part of the star with Ho. V. Lar II.1 to buy his code pure the star to the part of the star with the inshed by Bancroft & Co. of Shu Francisco. A revolution adopted by the lectilature two years also expressly authorizes the score tary of state to they 2000 copies of fills code. Under the contract thus made the books were pricted by two lost stated in the Bancroft to tables ment at San I runniveo awaiting delivery they were rendered worthless by fire and water they were rendered to the new books will be issued. The projugation is to be fore the legislature provides an equally excellent codification and publication for less notes they called for in the Bancroft of inect and provides a so that all the work shall co-come to the state. But regist to take advantige to the provide the contract. epin late its contract. Is it right to take advan-ice of a delay caused by the indisfortune of inc. there is the run | It is manifestly to the financia sterest of the state to have the work done at

referst of the state to have the work done at hime. No active of rile is been made in the matter of temperance ke station. Or. Watts has a bill in the sir at circumstance for which has a bill in the sir at circumstance in the sir at circumstance. In the house the kendy law with a change added declaring that this taw shall not be applied ble to incorporated cities and towns that been introduced. The light of these measures the reflection to submit a probletory amountment to the people passed the first time two larges with conjections of the season and will no touch go through as both parties are ledged to support it by their platforms of

cone up for mail act on before the close of the setsion and will no loubt go through as both parties are gledged to support it by their platforms of a testila.

A resolution introduced into the house by Hales carry in the week and adopted providing for 100 Lemmittee to examine the locks at Org. In City and to report upon their relation to the confirmation of the country etc. Is designed to lead to to grow the proposition to add the testilation of the country etc. The locks have lately come into the po--80 000 The looks have lately come into the poss-school a water power company composed of
Oregon City Portland and lastern men. They
are anxious to have the state buy at this time or
give up the option which it has under the original
charter to the locks company to buy n. 1891 six
years from now. The subject is a big one with
many considerations on both sides—too big to be
discussed fully in a letter fast growing beyond reasonable limit of since.
Farly in the first week of the sess on Paulsen. Of
Washington county, introduced a loughtnesser.

rarly in the lirst week of the seas on Panison of Washington country, introduced a joint memoral focongress reciting that the election of United States senators was commonly attended by sean dalous corruptions and praying that the constitution be modified so as to require the election escapators by direct vote of the peop. This resolution came up or action on I riday when Panison made a strong panish to Faulson made a strong panish to favor by reference to the scandais of Mitchell's election has year. After some talk the resolution was adopted. The incident was interesting as an illustration of the disgust at the Mitchell outrage which prevails throughout the country. It presentatives from every part of the state hore testimony to the prevailing sentiment for taking the election of senators out of legislative for its senators.

for taking the election of senators out of regislative for it. Penney restail better with patience of good a titure to the thousand and one jokes a which he is the vice in the represent attitude suits the natura taste for opposition. Taking to him pesterday I referred to Mr. Dolphe remarks upon his message reported in The Observation and it is not seen to the property of the prop in regard to it while benator Dolph has. And I hope that his afforts will be effective although with so much talk in regard to the boat railway ard to much attwerk to r hard to the railroad b. d., I sometimes teht the senator may be playing the partridge, hame kouknow, if course that a partridge on the approach of a hunder will a do sently lifteen or twenty reds away from its brood and then with grant outery and flapping of wings will fly away in order to mislead the hunter from its young. In this onnection there is one third, I wish the senator would ascertain. The supercodure of Maj Jones by Capt. I owell I think was caused by the fact that the war desurtment does not amony or of and so much met werk to r hard to the railroad lect that the war department does not approve of Maj Jones scheme of a boat riliway at The Dales This should be ascertained if the war that an of the senator's enorts in that behalf may be invariding. The senator should find our about this matter and inform the people of Origon. In regard to my knowledge of law I will not say one word. I have no dispute with the senator. He says that the law is that congress has power to at larrice the constriction of bridges over any habite rivers. The appears ecourt of the United States says that the lawer to authorize the building of bridges spot to be supported. n wer to authorize the building of bridges is not to be found in the federal constitution. So you see the issue is not between Senatur Dolph and my self but between Senator D. Ipp and the supremote in Integral to the assertion made by the selection that the war of the rebellion largely settled the doctrine of state rights. I will only say that this is the first time that I is verbeard that the constitution could be amended by any war. There is a constitutional days of amended by any war. There is a constitutional to only way of amended in no other way. I did not use the term states rights in my message. I only alluded to the doctrine of the constitution, and that necessarily led me to defend the rights of the states. The senator definitional fields at the mouth of the I but lad diabor with a draw in the clear of only 1 feet when he was aware of the fact that it is say. Unlied S he we replicate had repoined that the draw whould be a fifted for the clear I is that in draw whould be a fifted for the clear I is the in but between Schator D ipp and the supremi

United S at a circli error had reported that the draw should be do feet in the clear of 1856 the order that fines it is she that fines it is she the copie at the matter. The Wager havest action from have 1 it one end in mily confusion for Senster Sella who or a should it fith proved this size lengted high as charge falls flat. If Wiger length edge it is the next fill had been except fleet both the Investigating form the fine of 15 had length edge that the new fill pain content fill. At if Wiger should be except fleet what then He will be returned in ten days by special obelian by the innaminal sport at length of the Irit of the fill of the manifolds agree at lend with military of the Irit one if military land the fill had been accorded by the international fill had been accorded to the fill had been accorded by the fill had been accorded by the fill had been accorded by the fill had been accorded to the fill had been accorded the internation for his explosion will not derive to secret district the completion of the secret of a not of the computation.

See of did the Forten is no investigation with more dark to secret dark to not for his expulsion. The scandar ever the enj young of first clerks is now before the legislature in a form that makes made in section in minority in a force. which makes javestightlin inpurit ve 1 forts have been ind still releting a ade to fit, hen the foung women to whom the kandalous proposals were made late sugaling a statement that it was were made late sixiling a statement that it was only a loke or into absenting themselves from the capito! Men who ought to be in better his ness have attempted negotiations to this end. I min informed, however that the jour, women decline to be frightened that they reject all efforts to this purpose as scarcely less inframous than the original infamous approach. The rion, to which as an after of course the men ber implicated but home, will be its thinest to save him but I fear they will find it hard to prove that it was only a joke.

Commission on a Land Sale.—The case of Green against the toos Bay Wagon Boad company was tried without a jury and submitted in the U S circuit court on Saturday. In 1870 defendants bounded their road and land grant, comprising 110,000 acres, to A. T creen, of San Fraccisco, to sell for them at \$1\$ per acre, agreeing to pay him a commission of \$5000 when the land was conveyed and the money paid in 1875 Green sold the land to John Miller, a sort of "outside man" for Crocker, Stanford and Hundington. The company had a patent to 35 000 acres of the land. This they decided to Miller and received their money, and paid Green \$2000 as his commission. Shortly after, Miller was arrested on a charge of subszizement preferred by Crocker et al., and he assigned the land he had paid for and his contract for the remaining 75,000 netres. In 75 or 70 the Wagon Road company received a patent to the rest of the land and they called upon Crocker, Stanford & Co. to take this land and pay for it, which they declined to The company had a vention of the noncompany thereupon brought suit in the U S circuit court to enforce a vendor's lien against the whole tract to secure the balance of the nur chase money contracted to be paid by Miller The court decided that the company had a vention is lien and could sell all the land to secure their contract price. Crocker & Co carried the case to the supreme court of the thiled States No decision was ever reached in the case there, as before it was brought up the land was sold and the case dismissed. In 1881 creen took another contract to sell the whole tract of I and, the parties in the suit desiring to effect an arm cable settlement in this way. He dickered for a year or so with one Spang, of New York, when Spang and the Wagon Road company, brught the whole tract of I and, the parties in the suit desiring to effect an arm cable settlement in this way. He dickered for a rear or so with one Spang, of New York, when Spang and had he as add, come an and wants the balance of \$30.00, due him on his co

Sad Drowning — Asserday afternoon about I o'clock Plmy Hards Scott, aged 5 years, step son of Dr. Kenneth A. J. Mackenste, was o'clork Piny Hardy Scott, aged by years, step son of Dr. Kenneth A. J. Mackenzie, was drewned in Tanner creek, at the head of f. ylor street. He and Hoderick Maciesy, a son of Mr. Donald Macleay, left their home a few minutes before the sad accident and walked down the side of the guich to the water. O'clinaril, the creek will barely float a chil, but owing to recent heavy rams it was yes terday a small rushing torrent. The water was from four to six fent deep P my was standing on a board thrown across the creek and attempted to sound the depth of the stream with a large state which he he d in his hand. The current pulled the stack from him and, chilolike, he clung to it. Being delicate and physically weak, he look his balance and fell into the waiter. Young Maclesy, who was near him, attempted to grasp him, but in an instant the current had swept him not of reach. The drowning boy struggled desperately and Macleay sum him, it is to the surface four or five times, vanily striving to grasp something by which he could sare his life. He was carred a distance of nearly two blocks in fore he sank for the heat time. Macleay immediately raised an alarm, and very soon several men hurried to the stream. Search for the body was commenced limme littely, scores of willing men entering the creek and remaining as long as the chilly water would permit Up to dark last night, the search was un successful. News of the drowning spread rapidly through the neighbord ood, and created no little sorrow, for the child, who was unusually bright and lovable, was a favorite. What makes the necdent more distressing is the fact that it occurred only a short distance from his home and in a place where there is droger not one day in a hondred.

SIMILY BULKBACKS -At various times small SINILA BILKRAGAS—At various times small red fish resembling trout have been cau, at a Lake Whatcom, and many theories have been advanced as to what species they belonged to To settle the matter, says the head they seen near of these fish were sent to Prof. T. J. Smith, president of the Bioomington, Ind., university, who is preparing a catalogue of the fish fourt in United States water? Acknowledging receipt of the specimens, he says. The "takkes" have come to head and are they young breeding "grilse" of the blueback salmon or red fish. If they cannot get out of Lake Whatcom they are perhaps land locked and stunded in their growth, never becoming larger. The same species in the Columbia reaches six or eight pounds. The scientific name is oncontagnous nertal. This is the same fish which breeds in Wallowa lake, and was, for a long time, though to be peculiar to that body of water.

AT ST VINCENT'S—At§St. Vincent's hospital

to that bedy of water.

AT ST VINCENT'S — At St. Vincent's hospital at the present time there are some seventy five patients, all of whom are generally speaking doing well Harry Blake, who met with a railrond accident at 1 a Grande about the with a railroad accident at I a Grande about the first of the year, receiving a compound fracture of the right leg between the knee and ankle and a simple fracture of the left leg, will be able to ever shortly Both fractures are bending 121-dly A D J Weelle, the surveyor who cut his right thee cap with an ax while surveying in South I orthand, is improving slowly, also sen Wilson who is suffering from a badly strained back A notable case is that of J har I might, a telegraph line repairer who is at ficted with paralysis of the left side—Earlight is also out of his head and talks incessantly in a cordance with statistics compiled from the healthful condition

I MALD BIGNATURES—On Saturday a saloon

h spiral cooks the chy appears to be a had condition.

LALKED SIGNATHERS—On Saturday a saloon keeper chiled at the office of (ify Treasurer Mc herchor to pay his license. Among the money paid was a \$20 greenback, which soon found its way into the hands of license other Abertichnor. When Abe went to pay it into a bank it was discovered that it had not been signed, and was of course refused. The bill was traced tack to the saloon man, who remembered the party from whom he received it, but so far as beard from has not been able to had him. The greenback was to all appearance a genuine one, and it may be that the omission of the signatures was accudental. If it had been fiviged the parties getting it up would not be likely to omit forgung the signatures nor would they he likely to have any scruptee about forging them as well as the note lisel?

Visit of Senator Gray's Guests to Oregon's Pishing Grounds-Promises from Lagislatora for Better Laws.

On Friday evening, at 60 clock, a party of sena-tors and representatives in the Oregon legislature left this city by the Luriline for Astoria. They were the guests of Senator J. H. D. Gray The party consisted of Senators Allen, Barin, Rinehart, Em-mett and Lee, and Representatives Haic, Gay Mc Celle. Lockett, Blevins and Pomeroy John W panted the party as

At 5 o'clock twenty two guests sat down to a fine

At 7.20 o clock the entire party through a poiting storm, made their way to Ross's opera house where was assembled a vast audiance of men representing the entire fishing interest.

Senstor Gray in calling the meeting to order said it was a pleasant duty to appear as their sens for in company with members of the legislature the were on the stage as his guests. He had come to see what could be done looking to the im nent of the fishing interests, and assist help

define highway of the nation. If you can lawfully put them in six feet of water then why not put them in six feet of water then why not put them in so or collect. The principle is exactly the set of the principle is exactly the set.

R ber those traps have a right to griet or no such right. They are placing them across the ship chattlets: I wish it clearly to be understood that while it is claumed I aska if his traps I askal from the property rights. They are also into the said not should be not speak pure facts and truth. I will not askall not not speak pure facts and truth. I will not askall not

trorress of your city. To my mind there are graind possibilities for it. You are situated here at the attempt to the high seas, and a large proportion of the connerce of Oregon and Washington Territory nust pass by here. Resognizing the importance of your location and your interests, we are here not officially but we are here by invitation of your recate and the season of the proportion of the proportion

It comes up in this way. The people of the valicy are producers. They wish to get their products to the markets of the world as cheaply as possible. We want out products and you who own turgoouts to be amply paid. This is the first place. Then we want reasonable rates and they should be readist to he amply paid. This is the first place. Then we want reasonable rates and they should be readist to the trip to this coast.

The question that increats the people of Astoria. The question had increased the people of Astoria to not form the remarks of Mr. John on and these other gentlemen that the pottey being now pursued in reference to this industry is suited. I Applaised I it is evident to me the time is not far distant when you will be deprived of one of your grandest recourses in test in the settled and settled correctly and it cally. I had heped to been from those gentlemen who represent the fight traps. We want to indust of the right in the matter. We want to indust of the right in the matter. We want these recourses preserved. All thingous in interested and directly as you are fire the policy as one peritor of the country grows prosperous and wealthy all others are being first. He interested as well as you.

span i have made the tamolite, talk

ARATOR LARIU

Of Chekkmas county was introduced and said it has been at least seven years since I have been at Astoria, and, since that time, Astoria has certainly grown very much I had often heard, and in fact I was convinced from the votes cast at cloquious that Catatop county and Astoria must ha be grown considerably I was certainly surprised when I came here and looked around to-day and did see the improvements that have been made here since I was here het I has been often as serted that the population of Astoria was translent, in the public public publics when I came here shows here since I was here het. I have been often as serted that the population of Astoria was translent, publics and was translent publics. I would be a served that the population of the publics have an administration of the server as this has been enlarged. It cannot be done by a tradsent population. If must be done by a population that intends to make the place a home. (Applause) Doubtless one of the great causes of the growth of Astoria is your fishing Interests. It is doubtless one of the great causes of its growth and I am sorry to night that the bouse of representatives did not concur in sending, by your fresolution of your senator a joint con nicee.

siny be so established. [Applause]
Simething therefore should be done to regulate the fishing interests so that it should be for the benefit of the largest numbers. Whatever may be to your benefit is for the benefit of the state at large. If Claisop county and actions grows the rest of the water receives its proportional reards and the literate of the people of the wall of the state and the interest of the people of the wall of the state in the state of the people of the wall of the state in the state of the people of the wall of the state in the state of the people of the wall of the state in the state of the people of the wall of the state in the state of the matter here. How we had better do it I can taxy at this time. We shall have to consult together when we return and talk to our colleagues there and represent to them what we have heard here to night what we have been during the day and what we lave karued and what we believe, in our judg nent will be the hest. We should have propagating establishments in our state for the reason in 1701 agasling establishments there can be more salmen produced from two good breeding salmen than from 20 or 30 that naturally spawn in the rivers. I are needloned spates of the section of the state of the section of the epawing time and you will observe that when the lemale salmen spawns there are shoals of dash of all kinds ready to take the eggs as fast as spawned. Even after the salmon are batched out the young salmon when they fart break through the eggs—the describe them, they are a helpless little thing without mouth tail or that with eggs still begg—to describe them, they are a helpless little thing without mouth tail or that with eggs still begg—to describe the salmen are also and the first of the state the state of the lightature as near as possible to do their duty to the criticans at large in every part of the state. Applaints of the state the site of the

I STON Jan 2 - The demand for would the past
week has been active and sales of all kinds amount
to 2401 409 pounds. Business however has been
larger than these figures show as considerable do
mestic wool has been sold wheth will not be reperfed in til 1 cxt week bome 130 bales of Aus
trainin have also been sold to arrive. The market
is very firm on all desirable wools. All the improv
tailing have also been sold to arrive. The market
is very firm on all desirable wools. All the improv
though no material salvance has taken plane the
led dency of the market is nowards. It would be
no surprise to see the prices to higher before unaity
weeks. There has again been a large number of
manufacturers present here in search of bargains
but they for not none and bought freely at full
lices. There has a firm toon in the market and
at the close all branches of trade spake encourag,
high of the situation. The dermind is moderate

New York for Calcutta getting 0%c She carries 0.00 Cares 0.00 cares 1.00 master of the ship Yorktown says (ivits Yetchia is an expensive port. He discharged a cargo of wheat there from San Francisco and was charged 2000 frances for the use of a hawser. No ships with ordinary hasts can secure there with safely during the fall and winter mouths and the government furnishes hawsers free of charge subject to pay damages if nny done to the lines, and from the fact that they gave him a chafed lawser and then charged up damages he concludes that a hawser is not furnished for nothing. He puld 260 france in all for extra fasts.
